**INDEPENDENT AUDITOR'S REPORT**

**to the shareholders of  
Emami Bangladesh Limited**

**Report on the Audit of the Financial Statements**

**Opinion**

We have audited the financial statements of Emami Bangladesh Limited, (the Company), which comprise the statement of financial position as at 31 March 2023, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company as at 31 March 2023, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

**Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with ethical requirement that are relevant to our audit of the financial statements in Bangladesh, and we have fulfilled our ethical responsibilities in accordance with these requirement. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Responsibilities of Management and Those Charged with Governance for the Financial Statements**

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with International Financial Reporting Standards (IFRSs), the Companies Act 1994 and other applicable laws and regulations, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charge with governance are responsible for overseeing the Company's financial reporting process.

**Auditor's Responsibilities for the audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

# AHMED MASHUQUE & CO.

Chartered Accountants

[www.ahmedmashuque.com](http://www.ahmedmashuque.com)

Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## Report on Other Legal and Regulatory Requirements

In accordance with the Companies Act, 1994 we also report the following:

- a) we have obtained all the information and explanation which to the best of our knowledge and belief were necessary for the purposes of our audit and made due verification thereof;
- b) in our opinion, proper books of account as required by law have been kept by the company so far as it appeared from our examination of those books; and
- c) the statement of financial position and statement of profit or loss and other comprehensive income dealt with by the report are in agreement with the books of account.

**Emami Bangladesh Limited**  
**Notes, comprising significant accounting policies and other explanatory information**  
**For the year ended 31 March 2023 and as at 31 March 2023**

**1.00 Company profile**

**1.01 Legal status of the company**

Emami Bangladesh Ltd. was incorporated in Bangladesh as a private limited company on 25th November 2004 under the Companies Act, 1994 vide registration no. C-54994(1679)/04.

**1.02 Nature of business**

The company is primarily engaged in importing, trading, manufacturing and distribution of ayurvedic and cosmetics products.

**2.00 Basis of preparation**

**2.01 Statement of compliance**

The financial statements have been prepared in accordance with the Companies Act, 1994; the Securities and Exchange Rules, 1987 as well as the provisions of the International Financial Reporting Standards (IFRS), International Accounting Standards (IAS) and relevant laws applicable in Bangladesh. The title and format of these financial statements follow the requirements of IFRS which are to some extent different to the requirements of the Companies Act, 1994. However, such differences are not considered material.

The following IASs and IFRSs are applicable for the preparation of financial statements for the year:

IAS-1 : Presentation of Financial Statements;

IAS-2 : Inventories;

IAS-7 : Statement of Cash Flows;

IAS-8 : Accounting Policies, Changes in Accounting Estimates and Errors;

IAS-10 : Events after the Reporting Period;

IAS-12 : Income Taxes;

IAS-16 : Property, Plant and Equipment;

IAS-19 : Employee Benefits;

IAS-21 : The Effects of Changes in Foreign Exchange Rates;

IAS-24 : Related Party Disclosures;

IAS- 36 : Impairment of Assets;

IAS-37 : Provisions, Contingent Liabilities and Contingent Assets;

IAS-38 : Intangibles Assets;

IFRS-7 : Financial Instruments: Disclosures;

IFRS-9 : Financial Instruments;

IFRS-13 : Fair Value Measurement;

IFRS-15 : Revenue from Contracts with Customer and

IFRS-16 : Leases;

**2.02 Directors' responsibility statement**

The Board of Directors takes the responsibility for the preparation and fair presentation of these financial statements.

**2.03 Date of authorization**

On 26 April 2023, the Board of Directors reviewed the financial statements and authorized for issue.

**2.04 Reporting period**

The financial year of the company has been determined to be from 01 April to 31 March each year. These financial statements have covered the year from 01 April 2022 to 31 March 2023.

**2.05 Basis of accounting**

The financial statements have been prepared under the accrual basis of accounting.

**2.06 Going concern**

As per management assessment the company had adequate resources to continue in operation for foreseeable future and there is no material uncertainties related to event or conditions which may cast significant doubt upon the company's ability to continue as going concern, and hence, the financial statements have been prepared on going concern basis.

**2.07 Functional and reporting currency**

These financial statements are presented in Bangladeshi Taka (BDT or Tk.), which is the functional and presentation currency of the Company. The figures of financial statements have been rounded off to the nearest Taka.

## 2.08 Statement of cash flows

Statement of cash flows has been prepared as per IAS 7: Statement of Cash Flows using Direct Method.

## 2.09 Basis of measurement

The financial statements have been prepared on accrual basis under the historical cost convention except for inventories which are measured at lower of cost and net realisable value.

## 2.10 Use of estimates and judgments

The preparation of the financial statements in conformity with International Financial Reporting Standards (IFRS) requires management to make judgment, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual result may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the year in which the estimates are revised and in any future periods affected.

### (a) Judgements

Information about judgments made in applying accounting policies that have most significant effect on the amount recognized in the financial statements is included in the following notes:

Note #	3.01	Depreciation on Property, plant and equipment
Note #	3.01	Depreciation on property, plant and equipment
Note #	3.03	Inventories

### (b) Assumption and estimation uncertainties

Information about assumption and estimation uncertainties that have a significant risk of resulting in a material adjustment in the year is included in the following notes:

Note #	11	Deferred tax liabilities
Note #	12	Current tax liability
Note #	13	Provisions for expenses and other

## 2.11 Materiality and aggregation

Each material class of similar items is presented separately in the financial statements. Items of dissimilar nature or function are presented separately unless they are immaterial.

## 2.12 Measurement of fair values

The Company has an established control framework with respect to the measurement of fair values. Management has the overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values.

Management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the valuation team assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of IFRS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of an asset or a liability, the Company uses market observable data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs). If the inputs used to measure the fair value of an asset or a liability might be categorised in different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

## 3.00 Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

### 3.01 Property, plant and equipment

#### a) Recognition and measurement

An item of property, plant and equipment that qualifies for recognition as an asset is initially recognized at its cost of acquisition and subsequently stated at cost less accumulated depreciation and impairment losses, if any, in accordance with IAS-16: Property, Plant and Equipment. The cost of an item of property, plant and equipment comprises its purchase price, import duties and non-refundable taxes, after deducting trade discount and rebates, and any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the intended manner.

#### b) Subsequent cost

The cost of replacing component of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the component will flow to the company and its cost can be measured reliably. The costs of the day to day servicing of property, plant and equipment are recognized in the statement of profit or loss and other comprehensive income as incurred.

#### c) Depreciation

Depreciation is calculated on Straight Line Method. The principal rates generally in use are as follows :

<u>Particulars</u>	<u>Estimated useful life</u>
Computer and accessories	3 Years
Furniture and fixtures	10 Years
Electrical equipment	10 Years
Plant and machineries	10 Years
Vehicle	8 Years
Factory building	10 Years
Block & Dice	10 Years

#### d) Disposal

On disposal of property, plant and equipment, the cost and accumulated depreciation are eliminated and gain or loss on such disposal is reflected in the statement of profit or loss and other comprehensive income, which is determined with reference to the net book value of the assets and net sales proceeds.

#### e. Capital work-in-progress

The capital work-in-progress represent the value of the factory building under construction. The value of capital work-in-progress has been transfer to Factory Building during the year. No depreciation was charged until the completion of construction.

### 3.02 Right to use assets and lease liability

IFRS 16 introduces a single, on-balance sheet lease accounting model for lessees. A lessee recognizes a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. There are recognition exemptions for short-term leases and leases of low-value items. Lessor accounting remains similar to the current standard – i.e. lessors continue to classify leases as finance or operating leases.

IFRS 16 replaces existing leases guidance, including IAS 17 Leases, IFRIC 4 Determining whether an Arrangement contains a Lease, SIC-15 Operating Leases – Incentives and SIC-27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease.

#### Recognition

A right-of-use asset and a lease liability is recognized by the company at the *commencement date*.

#### Measurement

##### *Initial measurement of the right-of-use asset*

At the commencement date, the right-of-use asset are measured at cost.

The cost of the right-of-use asset comprise:

- the amount of the initial measurement of the lease liability,
- any lease payments made at or before the commencement date, less any *lease incentives* received.
- any *initial direct costs* incurred by the lessee; and
- an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories. The lessee incurs the obligation for those costs either at the commencement date or as a consequence of having used the underlying asset during a particular period.

#### Initial measurement of the lease liability

At the commencement date, the lease liabilities are measured at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the *interest rate implicit in the lease/incremental borrowing rate* which is 10%.

At the commencement date, the lease payments included in the measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

- a) *fixed payments* (including in-substance fixed payments), less any lease incentives receivable.
- b) *variable lease payments* that depend on an index or a rate, initially measured using the index or rate as at the commencement date.
- c) amounts expected to be payable by the lessee under *residual value guarantees*.
- d) the exercise price of a purchase option if the lessee is reasonably certain to exercise that option; and
- e) payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

#### Subsequent measurement of the right-of-use asset

After the commencement date, the right-of-use asset are measured applying a cost model.

##### Cost model

To apply a cost model, a lessee shall measure the right-of-use asset at cost:

- a) less any accumulated depreciation and any accumulated impairment losses; and
- b) adjusted for any remeasurement of the lease liability.

The straight-line depreciation is applying as per requirements in IAS 16 *Property, Plant and Equipment* is applied in depreciating the right-of-use asset.

If the lease transfers ownership of the underlying asset to the lessee by the end of the lease term or if the cost of the right-of-use asset reflects that the lessee will exercise a purchase option, the lessee shall depreciate the right-of-use asset from the commencement date to the end of the *useful life* of the underlying asset. Otherwise, the lessee shall depreciate the right-of-use asset from the commencement date to the earlier of the end of the *useful life* of the right-of-use asset or the end of the lease term.

IAS 36 *Impairment of Assets* is applied to determine whether the right-of-use asset is impaired and to account for any impairment loss identified.

#### Subsequent measurement of the lease liability

After the commencement date, the lease liabilities are measured by:

- (a) increasing the carrying amount to reflect interest on the lease liability.
- (b) reducing the carrying amount to reflect the lease payments made; and
- (c) remeasuring the carrying amount to reflect any reassessment or lease modifications, or to reflect revised in-substance fixed lease payments.

Assets type	Agreement period (no of months)	Implicit interest rate/ incremental borrowing rate
Factory	72	10%
Factory-2	47	10%
Benapole warehouse	29	10%
Factory guest house	36	10%
Gulshan warehouse	24	10%
Guest house	24	10%
Guest house	60	10%
Head office	28	10%
Office rent level 15	28	10%

### 3.03 Inventories

Inventories are valued in accordance with IAS 2: *Inventories* at lower of cost and net realizable value. Net realizable value is based on estimated selling price less any further costs expected to be incurred to make the sales. The cost of inventories is based on the weighted average cost method.

### 3.04 Consideration on credit risk

Management believes that there is no significant consideration of credit risk in the accounts receivable.

### 3.05 Employees' benefit schemes

#### a) Insurance scheme

The company has a personal life insurance scheme for its permanent employees, premium for which is being charged to statement of profit or loss and other comprehensive income annually as per the insurance policy.

#### b) Employees' retirement gratuity

The company provides retirement benefit in the form of gratuity determined by reference to employees' earnings and years of service to each eligible employees at the time of retirement/separation.

#### c) Leave encashment

Permanent employees of the company are entitled to receive leave encashment on unveiled earned leave.

#### d) Workers Profit Participation Fund (WPPF)

The company obtained the order from First labour court of Bangladesh to keep 5% of the dividend reserve instead of paying WPPF for the employees as the workers profit participation fund till disposed. However, High court division has given stay order against such order (writ petition 6337 of 2020). Based on expert legal advice obtained from Legal firms, the Company is of the opinion that being a 100% FDI Company, provisions regarding WPPF is not applicable to the Company till the time Government enacts relevant rules in this regard as on 31 December 2021. Management has decided to reverse provision made from 2013 to till date, since no specific rule has come into force yet. Details of reversal of fund is as below:

Year	Amount in BDT
2014-15	3,469,153
2015-16	8,898,986
2016-17	16,152,601
2017-18	14,824,809
2018-19	21,749,572
2019-20	25,143,828
2020-21	16,924,812
<b>Total</b>	<b>107,163,761</b>

### 3.06 Provisions

In accordance with the guidelines as prescribed by IAS 37: *Provisions, contingent liabilities and contingent assets* provisions are recognised when all the following criteria are met :

- When the company has a present obligation as a result of past event;
- When it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
- Reliable estimate can be made of the amount of the obligation.

The provision shall be reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources embodying benefits will be required to settle the obligation, the provision shall be reversed.

### 3.07 Taxation

Income tax expenses comprise current and deferred tax. Current tax and deferred tax are recognized in profit or loss except to the extent that it relates to items recognised directly in equity in which case it is recognized in equity.

#### Current tax

Current tax is recognized in line with the provisions of the Income Tax Ordinance, 1984.

### Deferred tax

Deferred tax is recognized in respect of temporary differences between the carrying amount of assets and liabilities for financial reporting purpose and the amounts used for taxation purposes. Deferred tax is not recognized for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that effects neither accounting nor taxable profit or loss.
- temporary differences related to investment in subsidiaries and jointly controlled entities to the extent that it is probable that they will not reverse in the foreseeable future, and
- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities are offset if there is legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

A deferred tax asset is recognized for tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

### 3.08 Revenue

'The Company has applied IFRS 15 "Revenue from Contracts with Customers" for annual reporting periods beginning on or after 01 January 2018. IFRS 15 provides a single, principles-based approach to the recognition of revenue from all contracts with customers. It focuses on the identification of performance obligations in a contract and requires revenue to be recognized when or as those performance obligations are satisfied.

"The new standard is based on the principle that revenue is recognized when control of goods or services transfers to a customer, so the concept of control replaces the existing concept of risks and rewards. This standard combines, enhances and replaces specific guidance on recognizing revenue with a single standard. A new five-step process must be applied before revenue from contract with customer can be recognized:

- i). Identify the contracts with customers;
- ii). Identify the separate performance obligation;
- iii). Determine the transaction price of the contract;
- iv). Allocate the transaction price to each of the separate performance obligations; and
- v). Recognize the revenue as each performance obligation is satisfied.

### 3.09 Statement of cash flows

Statement of cash flows is prepared in accordance with *IAS 7: Cash Flow Statement* under direct method.

### 3.10 Events after the reporting date

In accordance with *IAS 10: Events after the reporting period*, amount recognized in the financial statements are adjusted for event after the reporting period, that provide additional evidence of conditions that existed at the end of the reporting period. No adjustment is given in the financial statements for event after the reporting period that are indicative of conditions that arose after the reporting period. Events after the reporting period that are non-adjusting events are disclosed in the notes when material.

### 3.11 Materiality and aggregation

Each material class of similar items is presented separately in the financial statements. Items of dissimilar nature or function are presented separately unless they are immaterial.

Asif

### 3.12 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

#### Financial assets

The company initially recognises receivables and deposits on the date that they are originated. All other financial assets are recognised initially on the date at which the company becomes a party to the contractual provisions of the transaction.

The company derecognises a financial asset when the contractual rights or probabilities of receiving the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred.

Financial assets and liabilities are offset and the net amount presented in the Statement of financial position when, and only when, the Company has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

The Company classifies financial assets into the following categories: held-to-maturity financial assets, loans and receivables and available-for-sale financial assets.

#### • Accounts receivable

Accounts receivable is stated net of provisions, if any.

#### • Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and cash which are available for use by the Company without any restriction. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

#### • Investment in FDR

The Company has the positive intent and ability to hold fixed deposits to maturity, and as such financial assets are classified as held to maturity.

Investment in FDR has been made with State Bank of India, Standard Chartered Bank and The Hongkong Shanghai Banking Corporation. Interest on FDR has been accounted for on accrual basis considering the time elapsed for the current accounting period.

#### • Advances, deposits and prepayments

##### *Advances*

Advances are initially measured at cost. After initial recognition, advances are carried at cost less deduction, adjustment.

##### *Deposits*

Deposits are measured at cost value.

##### *Prepayments*

Prepayments are initially measured at cost. After initial recognition, Prepayments are carried at cost less charges to Statement of profit or loss and other comprehensive income.

#### Financial liability

All financial liabilities are recognised initially on the trade date, which is the date that the Company becomes a party to the contractual provisions of the instrument.

The company derecognises a financial liability when its contractual obligations are discharged or cancelled or expired.

The Company classifies financial liabilities into the other financial liabilities (liabilities carried at amortised cost) category. Such financial liabilities are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, these financial liabilities are measured at amortised cost using the effective interest method.

#### • Accounts payable and other payables

Accounts and other payables and other financial liabilities are recognized when contractual obligations arising from past events are certain and the settlement of which is expected to result in an outflow from the company of resources embodying economic benefits.

**3.13 Share capital**

Paid up capital represents total amount of shareholders capital that has been paid in full by the ordinary shareholders. Holders of ordinary shares are entitled to receive dividends as declared from time to time.

**3.14 Interest income and expenses**

Interest income comprises interest income on investment in FDR. Interest expenses comprise interest expense on borrowings from bank.

**3.15 Earning per share**

The Company calculates its earnings per share in accordance with IAS 33: *Earning per share*.

**Basic earnings**

This represents earnings for the year attributable to ordinary shareholders. As there were no preference shares requiring returns or dividends, minority interest or extraordinary items, the net profit after tax for the year has been considered as fully attributable to the ordinary shareholders.

**Basic earnings per share**

This has been calculated by dividing the basic earnings by the weighted average number of ordinary shares outstanding during the year.

**Diluted earnings per share**

No diluted EPS is required to be calculated for the year as there was no scope for dilution during the year under review.

**3.16 Offsetting**

Financial assets and liabilities are offset and net amount is reported in the financial statements only when there is legally enforceable right to set-off the recognized amounts and the company intends to either to settle on the net basis, or to realize the assets and to settle the liabilities simultaneously.

**3.17 Transactions in foreign currencies**

Transactions denominated in foreign currencies are translated into Bangladeshi taka at the rate of exchange ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into Bangladeshi taka at the exchange rates ruling at the statement of financial position date. Non monetary assets and liabilities denominated in foreign currencies, which are stated at historical cost, are translated into Bangladeshi taka at the exchange rate ruling at the date of the transaction. Foreign exchange differences arising on translation are recognized in the respective head of income/expenses.

**3.18 Comparative information**

Comparative information have been disclosed for all numerical information in the financial statements when it is relevant for understanding the current period's financial statements.

Previous year's figure has been re-arranged whenever considered necessary to ensure comparability with the current year's presentation as per IAS 8: Accounting policies, Changes in Accounting Estimates and Errors.

Other provision	1,569,263	1,569,263
	<b>724,662,222</b>	<b>965,685,878</b>

VAT authority has contested the eligibility of exemption of SD & VAT on HNRO. The Company had filed an Appeal in the Appellate Tribunal against the claim made by the VAT Authority. The Appellate Tribunal passed an order on 18 November 2014 in favor of the Company. However, VAT Commissionerate, Dhaka (North) filed an Appeal against the said Order of the Tribunal in the High Court (VAT Appeal No. 16 of 2015). No hearing has taken place till date. Legal counsel of the Company is given PoA to ensure that the case is heard before disposal.

Based on the legal opinion, the management of the company has decided not to keep any provision against SD & VAT on Hinani and has decided to reverse the amount of provision, so far made in the financial statements up to 31st March 2022 on (four) successive years equally.

Other Litigation provision is also a contingency provision for Workers' Profits Participation (WPP), which the Company provided in the books. Based on expert legal advice obtained from different Legal firms, the Company is of the opinion that being a 100% FDI Company, provisions regarding WPPF is not applicable to the Company till the time Government enacts relevant rules in this regard. However, company made provision for WPPF up to year 2013.

<b>Total</b>		<b>27,983,731</b>	<b>5,428,809</b>	<b>23,804,025</b>

### 28.00 Financial risk management

The management of the company has the overall responsibility for the establishment and oversight of the company's risk management framework. Financial risk management policies require establishing standard procedures to identify and analyze the main risks to which the company is exposed and continually deploying and managing risk management systems designed to eliminate or reduce the probability that risks will arise and to limit their impact. There are three kinds of risk company faces:

- Credit risk
- Liquidity risk
- Market risk

#### 28.01 Credit risk

Credit risk is the risk of financial loss to the company if a customer or counter party to a financial instrument fails to meet its contractual obligation, and arises principally from the company's receivable from its customer. Management believes that there is no significant consideration of credit risk in the accounts receivable.

#### Exposure to credit risk

The maximum exposure to credit risk at the reporting date is as follows:

	<b>31-Mar-23</b>	<b>31-Mar-22</b>
	<b>Taka</b>	<b>Taka</b>
Inventories	152,557,518	182,282,034
Accounts receivable	834,345,030	671,904,121
Advances, deposits and prepayments	102,250,183	87,311,188
Investment in FDR & interest	901,031,375	521,767,773

#### 28.02 Liquidity risk

Liquidity risk is the risk that the company will not able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. Typically, the Company ensures that it has sufficient liquid assets to meet expected operational expenses including the servicing of financial obligations through preparation of cash forecast.

The following are the contractual maturities of financial liabilities :

	31-Mar-23 Taka	31-Mar-22 Taka
<b>Current Liabilities</b>		
Accounts payable	160,467,853	103,623,403
Short term bank loan	54,710,163	-
Lease liability	21,571,411	22,053,742
Current tax liability	164,282,416	75,108,925
Provisions for expenses and other	1,028,149,683	1,235,317,550
	<b><u>1,429,181,526</u></b>	<b><u>1,436,103,620</u></b>

The following are the contractual maturities of financial assets :

Inventories	152,557,518	182,282,034
Accounts receivable	834,345,030	671,904,121
Advances, deposits and prepayments	102,250,183	87,311,188
Investment in FDR & interest	901,031,375	521,767,773
Cash and cash equivalents	52,040,804	80,453,647
	<b><u>2,042,224,910</u></b>	<b><u>1,543,718,763</u></b>

On subsequent period, the company has sufficient amount of sales revenue to cover required working capital.

### 28.03 Market risk

Market risk is the risk that changes in market prices such as foreign exchange rates .The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.
